

● PROCESS CONTROL AND AUTOMATION

Automated Process Control for MBRAUN Chambers

MBRAUN evaporation systems are ready for fast process control automation through the SweepMe! platform.

Ready to start

Existing drivers for temperature controllers, pressure sensors, QCM monitors, shutters, ...

Expandable

Additional instruments and replacement parts can be integrated at any time.

● IMPROVE THE HANDLING AND THROUGHPUT OF YOUR MBRAUN SYSTEM

Process control tailored to your needs

Integration Options:

- free ➡ **Monitoring (free):**
Log and visualize all manually controlled instruments
- ➡ **Semi-automatic control:**
Control layer deposition process in the software
- ➡ **Full automation:**
Autonomous multilayer co-deposition from recipe
